

CUSTOM RACK POWER SYSTEMS

AVAILABLE FEATURES:

- ◆ 19" - 24" , 2U - 6U Rack Mountable with available mounting rails, Rack assembly mounting provisions can be configured to customer specifications.
- ◆ Custom Hot Swap using plug-in modules of standard supplies or custom designed modules.
- ◆ Design Flexibility - Design to your Specifications.
- ◆ Easy Input/Output connections provided. Multi outputs available via terminal block, bus bar arrangement or various connector choices.
- ◆ Reduces cost and saves time.
- ◆ N+1 Redundancy provided with integral "Oring" Diodes (100 - 4000 Watts).
- ◆ Higher Power System MTBF's than with the use of a single supply run at full load, or two supplies connected in a brute force share without the use of oring diodes.
- ◆ Universal, Power Factor Corrected, DC and Redundant inputs available.
- ◆ LED's to indicate power supply status.
- ◆ Power Good / Power Fail signals.
- ◆ Current Share.
- ◆ Over temperature, over voltage, over load and short circuit protection. Available with alarm circuitry.
- ◆ Internal filtering available to meet FCC Level B and EN 55022 Level B requirements.
- ◆ Switches, handles, labels and markings per customer requirements.
- ◆ Consult factory for additional specifications.
